- ¹ Phase out begins if modified adjusted gross income ("MAGI") exceeds the lower number. Complete phase-out is reached when MAGI exceeds the upper number.
- ² This consists of as many as three parts: 6.2% for Old-Age, Survivors, and Disability Insurance, 1.45% for Hospital Insurance, and a Medicare surtax of 0.9%. The first part (6.2%) applies only to the \$168,600 wage base; the second part (1.45%) applies to every dollar of wages; the third part (0.9%) applies to all wages above the following thresholds: \$250,000 (married filing jointly), \$200,000 (single and head of household), \$125,000 (married filing separately).
- ³ This consists of as many as three parts: 12.4% for Old-Age, Survivors, and Disability Insurance, 2.9% for Hospital Insurance, and a Medicare surtax of 0.9%. The first part (12.4%) applies only to the \$168,600 self-employment base; the second part (2.9%) applies to every dollar of self-employment income; the third part (0.9%) applies to all self-employment income above the following thresholds: \$250,000 (married filing jointly), \$200,000 (single and head of household), \$125,000 (married filing separately).
- ⁴ The personal exemption has been effectively combined with the standard deduction for tax years 2018 through 2025.
- ⁵ A child subject to the kiddie tax will not be subject to tax on the first \$1,300 of unearned income; will be taxed on the next \$1,300 of unearned income at his or her own tax rate; and any additional unearned income taxed at the parent's top marginal tax rate.
- ⁶ A lower AMT tax rate of 26% applies to married individuals filing separately with alternative minimum taxable income less than \$116,300 and \$232,600 for all others (married filing jointly, single, head of household, surviving spouse, estates and trusts).
- ⁷ The AMT exemption is reduced by 25% of AMTI in excess of the lower amount indicated until the higher amount is reached.
- ⁸ Surtax Rate of 3.8% applies to MAGI in excess of the amounts shown, but not more than net investment income (undistributed net investment income in the case of Estates or Trusts).
- ⁹ Full retirement age is 65 for those born in 1937 or earlier and age 67 for those born in 1960 or later. If you were born in between 1937 and 1960, full retirement age is between age 65 and 67 per Social Security rules. See <http://www.ssa.gov/retire2/retirechart.htm>.
- ¹⁰ Archer MSAs were discontinued, so that generally no new Archer MSAs can be established after 2007, but Archer MSAs created before then may continue with the limitations indicated. For taxpayers with an HDHP deductible below the annual maximum (\$4,150 and \$8,350 for self and family, respectively), the maximum annual contribution will be 65% (self) or 75% (family) of the taxpayer's annual deductible under the individual's HDHP coverage.
- ¹¹ Most do not pay this premium for Part A. For details, see <http://www.medicare.gov/your-medicare-costs/>.
- ¹² Married couples filing jointly with 2022 modified AGI up to \$206,000 (singles and married persons filing separately up to \$103,000) pay \$174.70 monthly (up from \$164.90 last year), while those with higher incomes pay gradually higher premiums up to a maximum of \$594.00 monthly for married filing jointly with income \$750,000 and above (singles \$500,000 and above and married filing separately \$397,000 and above).
- ¹³ In addition to whatever monthly plan premium you pay to your chosen Part D coverage provider, if your MAGI is above a certain limit, you may pay a Part D income-related monthly adjustment amount. Married couples filing jointly with annual MAGI above \$206,000 (singles and married persons filing separately above \$103,000) will pay an additional income-related adjustment (\$12.90 for singles and married filing jointly, and \$74.20 for those married filing separately), while those with higher MAGIs pay gradually higher additional premiums up to a maximum of \$81.00 monthly for married filing jointly with MAGI \$750,000 and above (singles \$500,000 and above, and married filing separately \$397,000 and above).
