Our Company

We believe Michaels is where creativity happens. With 1,313 stores (consisting of 1,196 Michaels stores and 117 Aaron Brothers stores) as of January 30, 2016 and approximately \$4.9 billion in sales in fiscal 2015, Michaels is the largest arts and crafts specialty retailer in North America based on store count. We also operate a market-leading vertically-integrated custom framing business. Our mission is to inspire and enable customer creativity, create a fun and rewarding place to work, foster meaningful connections with our communities and lead the industry in growth and innovation. With helpful store associates and a broad selection of merchandise combined with compelling in-store events and online content, we believe we offer the most complete arts and crafts experience and are the preferred destination in the industry.

Our stores are at the heart of our customer engagement strategy, showcasing our artistic and creative products while providing an opportunity for our store associates to interact with customers and help them develop creative ideas. We carry a broad and deep assortment of approximately 33,000 stock-keeping units in arts, crafts, papercrafting, floral, framing, home décor, seasonal offerings and children’s hobbies that enable us to satisfy the diverse needs of our customers. We have also developed a robust online platform which promotes social networking, and includes expert tips, project ideas, marketing content and information on upcoming store events. In recent years, we have capitalized on our market-leading scale to create a team and infrastructure dedicated to designing, sourcing and delivering high quality, on-trend merchandise, including a growing number of products under our portfolio of private brands.

Our private branded products, which represented approximately 53% of total net sales in fiscal 2015, are only available at Michaels or certain exclusive partners and allow us to further differentiate our merchandise while enhancing product margins. We are also able to use our scale and market leadership to identify and secure exclusive third-party products. We believe our compelling store experience and broad product offering distinguish us from our competitors and position Michaels as the leading brand that defines arts and crafts.

On February 2, 2016, we acquired Lamrite West, Inc. and certain of its affiliates and subsidiaries (“Lamrite”) for \$150 million, subject to certain purchase price adjustments, utilizing our existing cash on hand. Lamrite operates an international wholesale business under the Darice brand name and 32 arts and crafts retail stores, located primarily in Ohio and the surrounding states, under the Pat Catan’s brand name. Lamrite is expected to generate revenues of over \$200 million in fiscal 2016 and the retail stores have approximately 32,000 average square feet of selling space per store. The acquisition is expected to enhance our private brand development capabilities, accelerate our direct sourcing initiatives and strengthen our business-to-business capabilities.

Share repurchase

We intend to purchase from the underwriters 2,000,000 shares of our common stock that are subject to this offering at a price per share equal to the price per share paid by the underwriters to the selling stockholders in this offering. We refer to this repurchase as the “share repurchase.” The share

repurchase is part of our existing \$200 million equity repurchase program approved by a special committee of our board of directors (“Board”) on March 15, 2016. After giving effect to the share repurchase, we will have remaining authorization to repurchase up to approximately \$ million of our common stock under the repurchase program. We intend to fund the share repurchase with cash on hand. The closing of the share repurchase is contingent on the closing of this offering.

The description and the other information in this prospectus supplement regarding the share repurchase is included in this prospectus supplement solely for informational purposes. Nothing in this prospectus supplement should be construed as an offer to sell, or the solicitation of an offer to buy, any of our common stock subject to the share repurchase.

The share repurchase was approved by a special committee of our Board, which is comprised entirely of disinterested directors.
Principal stockholders	Following the completion of this offering, investment funds affiliated with or advised by Bain Capital Partners, LP and The Blackstone Group L.P. (collectively, together with their applicable affiliates, the “Sponsors”) will continue to indirectly beneficially own a controlling interest in us. Risk factors

An investment in our common stock involves various risks. You should carefully consider the following risks and all of the other information contained in this prospectus supplement and the accompanying prospectus before investing in our common stock. In addition, you should read and consider the risk factors associated with our business included in the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, including our Annual Report on Form 10-K for the fiscal year ended January 30, 2016. See “Where you can find more information” and “Incorporation of certain documents by reference”. The risks described below and incorporated herein by reference are those which we believe are the material risks that we face. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment in our common stock.

Risks related to this offering

Your percentage ownership in the common stock of our company may be diluted by future issuances of capital stock, which could reduce your influence over matters on which stockholders vote.

Our Board has the authority, without action or vote of our stockholders, to issue all or any part of our authorized but unissued shares of common stock, including shares issuable upon the exercise of options, or shares of our authorized but unissued preferred stock. Issuances of common stock or voting preferred stock would reduce your influence over matters on which our stockholders vote, and, in the case of issuances of preferred stock, would likely result in your interest in us being subject to the prior rights of holders of that preferred stock.

There may be sales of a substantial amount of our common stock after this offering by our current stockholders, and these sales could cause the price of our common stock to fall.

As of March 9, 2016, there were 208,977,716 shares of our common stock outstanding. Of our issued and outstanding shares, all the common stock sold in our initial public offering, our public offering in January 2015, our public offering in July 2015 and this offering will be freely transferable, except for any shares held by our “affiliates”, as that term is defined in Rule 144 under the Securities Act. Following completion of this offering, and after giving effect to the share repurchase, approximately 56.0% of our outstanding common stock will be held by investment funds affiliated with the Sponsors and our officers and directors.

Each of our directors, executive officers and significant equity holders (including affiliates of the Sponsors) have entered into a lock-up agreement with the underwriters which restricts their sales of our common stock for a period of 30 days after the date of this prospectus supplement, subject to certain exceptions and automatic extensions in certain circumstances.

Sales of substantial amounts of our common stock in the public market after this offering, or the perception that such sales will occur, could adversely affect the market price of our common stock and make it difficult for us to raise funds through securities offerings in the future. Of the shares to be outstanding after this offering, the shares sold in our initial public offering, the shares sold in our public offering in January 2015, the shares sold in our public offering in July 2015 and the shares offered by this prospectus will be eligible for immediate sale in the public market without restriction by persons other than our affiliates. Our remaining outstanding shares will become available for resale in the public market as shown in the chart below, subject to the provisions of Rule 144 and Rule 701.

<u>Number of shares</u>	<u>Date available for resale</u>
90,036,266	On the date of this offering (March 22, 2016)
117,382,491	30 days after this offering (April 21, 2016), subject to certain exceptions and automatic extensions in certain circumstances

Under the amended and restated registration rights agreement with the Sponsors and certain other shareholders, beginning 90 days after this offering, or such earlier time as we consent, the Sponsors may require us to register their shares for resale under the federal securities laws, subject to reduction upon the request of the underwriter of the offering, if any. Registration of those shares would allow the holders to immediately resell their shares in the public market. Any such sales or anticipation thereof could cause the market price of our common stock to decline.

In addition, we have registered shares of common stock that are reserved for issuance under The Michaels Companies, Inc. 2014 Omnibus Long-Term Incentive Plan.

Cautionary note regarding forward-looking statements

This prospectus supplement, the accompanying prospectus, the documents incorporated by reference herein and therein and any related free writing prospectus contain forward-looking statements within the meaning of federal securities laws that relate to future events or our future financial performance. In many cases, you can identify forward-looking statements by terminology such as “aim”, “anticipate”, “assume”, “believe”, “can have”, “continue”, “could”, “due”, “estimate”, “expect”, “forecast”, “goal”, “intend”, “likely”, “may”, “objective”, “outlook”, “plan”, “potential”, “positioned”, “predict”, “pro forma”, “project”, “should”, “target”, “will”, “would” or the negative of these terms or other comparable terminology. These forward-looking statements are made based on our management’s expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These uncertainties and other factors could cause our actual results to differ materially from those matters expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Important factors that may cause actual results to differ materially from the results expressed or implied by these forward-looking statements are set forth under “Risk Factors” in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus. These forward-looking statements are based on information available to us on the date each forward-looking statement is made. We undertake no obligation, except as may be required by law, to publicly update or revise any of the forward-looking statements, whether as a result of new information, future events or otherwise.

Some of the important factors that could cause our actual results, performance or financial condition to differ materially from expectations are:

- general economic factors and changes in consumer preference may adversely affect our performance and could materially adversely affect our sales, results of operations and cash flow;
- our substantial debt could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk, prevent us from meeting our obligations under our notes and credit facilities and limit our flexibility in operating our business;
- a failure to adequately maintain security and prevent unauthorized access to electronic and other confidential information, which could result in additional Company data breaches, could materially adversely affect our reputation, financial condition and operating results;
- competition, including Internet-based competition, could negatively impact our business;
- our significant reliance on foreign suppliers, particularly those located in China, increases our risk of obtaining adequate, timely, and cost-effective product supplies;
- even if we are able to substantially continue our strategy of expanding our store base, our success will depend on how well we manage our business;
- damage to the reputations of the Michaels brand or our private and exclusive brands could adversely affect sales;
- our fourth quarter has historically been our highest quarter for sales and profitability, and a weak fourth quarter could have material adverse impacts on us;
- our promotional and merchandising programs are dependent on consumer responses, which could be unfavorable or unexpected, adversely impacting our sales;

- our holding company structure makes us, and certain of our direct and indirect subsidiaries, dependent on the operations of our, and their, subsidiaries to meet our, and their, financial obligations; and
- the Sponsors have the ability to control the outcome of matters submitted for stockholder approval and they may have interests that differ from those of our other stockholders.

The above is not a complete list of factors or events that could cause actual results to differ from our expectations, and it is not possible for us to predict all of them. We derive many of our forward-looking statements from our own operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus supplement and the accompanying prospectus and the “Risk factors” section in this prospectus supplement. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in this prospectus supplement, the accompanying prospectus supplement and the documents incorporated by reference herein and therein, as well as other cautionary statements that are made from time to time in our other SEC filings and public communications. You should evaluate all forward-looking statements made in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein in the context of these risks and uncertainties.

Potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on the forward-looking statements. These forward-looking statements speak only as of the date of this prospectus supplement, the accompanying prospectus, the documents incorporated by reference herein and therein or any related free writing prospectus, as applicable. Except as required by law, we undertake no obligation to update or revise any forward-looking statements publicly whether as a result of new information, future developments or otherwise.

Any future determination to pay dividends will be at the discretion of our Board, subject to compliance with applicable law and any contractual provisions, including under agreements for indebtedness, that restrict or limit our ability to pay dividends, and will depend upon, among other factors, our results of operations, financial condition, earnings, capital requirements and other factors that our Board may deem relevant. For additional information concerning restrictions relating to agreements for indebtedness, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources” in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus supplement and the accompanying prospectus.

Material U.S. federal income tax considerations for Non-U.S. Holders of shares of our common stock

The following is a summary of the material U.S. federal income and estate tax considerations relating to the purchase, ownership and disposition of shares of our common stock acquired pursuant to this offering by Non-U.S. Holders (defined below). This summary does not purport to be a complete analysis of all the potential tax considerations relevant to Non-U.S. Holders of shares of our common stock. This summary is based upon the Internal Revenue Code of 1986, as amended (the “Code”), the Treasury regulations promulgated or proposed thereunder and administrative and judicial interpretations thereof, all as of the date hereof and all of which are subject to change or differing interpretations at any time, possibly with retroactive effect.

This summary assumes that shares of our common stock are held by a Non-U.S. Holder as “capital assets” within the meaning of Section 1221 of the Code. This summary does not purport to deal with all aspects of U.S. federal income and estate taxation that might be relevant to particular Non-U.S. Holders in light of their particular investment circumstances or status, nor does it address specific tax considerations that may be relevant to particular persons who are subject to special treatment under U.S. federal income tax laws (including, for example, financial institutions, broker-dealers, insurance companies, partnerships or other pass-through entities, certain U.S. expatriates or former long term residents of the United States, tax-exempt organizations, pension plans, “controlled foreign corporations”, “passive foreign investment companies”, corporations that accumulate earnings to avoid U.S. federal income tax, persons in special situations, such as those who have elected to mark securities to market or those who hold shares of our common stock as part of a straddle, hedge, conversion transaction, synthetic security or other integrated investment, persons that have a “functional currency” other than the U.S. dollar, or holders subject to the alternative minimum tax or the 3.8% tax on net investment income). In addition, except as explicitly addressed herein with respect to estate tax, this summary does not address estate and gift tax considerations or considerations arising under the tax laws of any state, local or non-U.S. jurisdiction.

For purposes of this summary, a “Non-U.S. Holder” means a beneficial owner of shares of our common stock that, for U.S. federal income tax purposes, is an individual, corporation, estate or trust other than:

- an individual who is a citizen or resident of the United States;
- a corporation, or any other organization taxable as a corporation for U.S. federal income tax purposes, that is created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is included in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust if (1) a U.S. court is able to exercise primary supervision over the trust’s administration and one or more United States persons (as defined in the Code) have the authority to control all of the trust’s substantial decisions or (2) the trust has a valid election in effect under applicable U.S. Treasury regulations to be treated as a United States person.

A modified definition of Non-U.S. Holder applies for U.S. federal estate tax purposes (as discussed below).

If an entity that is classified as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of persons treated as its partners for U.S. federal income tax purposes will generally depend upon the status of the partner and the activities of the partnership. Partnerships and other entities that are classified as partnerships for U.S. federal income tax purposes that hold shares of our common stock and their investors are urged to consult their own tax advisors.

There can be no assurance that the Internal Revenue Service (“IRS”) will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the IRS or an opinion of counsel with respect to the U.S. federal income or estate tax consequences to a Non-U.S. Holder of the purchase, ownership or disposition of shares of our common stock.

THIS SUMMARY IS FOR GENERAL INFORMATION ONLY AND IS NOT INTENDED TO BE TAX ADVICE. PROSPECTIVE INVESTORS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME AND ESTATE TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SHARES OF OUR COMMON STOCK, AS WELL AS THE APPLICATION OF STATE, LOCAL AND NON-U.S. INCOME TAX AND OTHER TAX LAWS.

Distributions on shares of our common stock

As discussed under “Dividend policy” above, we do not currently pay, and do not anticipate paying in the foreseeable future, cash dividends on shares of our common stock. In the event that we do make a distribution of cash or property with respect to shares of our common stock, any such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles, and will be subject to withholding as described in the next paragraph below. If a distribution exceeds our current or accumulated earnings and profits, the excess will be treated as a tax-free return of the Non-U.S. Holder’s investment, up to such holder’s adjusted tax basis in its shares of our common stock. Any remaining excess will be treated as capital gain, subject to the tax treatment described below in “—Gain on sale, exchange or other taxable disposition of shares of our common stock”. Any distribution described in this paragraph would also be subject to the discussion below in “—Additional withholding and information reporting requirements for shares of our common stock held by or through non-U.S. entities”.

Any dividends paid to a Non-U.S. Holder with respect to shares of our common stock generally will be subject to a 30% U.S. federal withholding tax unless such Non-U.S. Holder provides the applicable withholding agent with an appropriate IRS Form W-8 (which may be required to be updated periodically), prior to the payment of dividends, such as:

- IRS Form W-8BEN or W-8BEN-E, as appropriate (or successor form), certifying, under penalties of perjury, that such Non-U.S. Holder is entitled to a reduction in withholding under an applicable income tax treaty; or
- IRS Form W-8ECI (or successor form) certifying, under penalties of perjury, that a dividend paid on shares of our common stock is not subject to withholding tax because it is effectively connected with the conduct of a trade or business in the United States of the Non-U.S. Holder (in which case such dividend generally will be subject to regular graduated U.S. federal income tax rates on a net income basis as described below).

The certification requirement described above also may require a Non-U.S. Holder that provides an IRS form or that claims treaty benefits to provide its U.S. taxpayer identification number. Special certification and other requirements apply in the case of certain Non-U.S. Holders that are intermediaries or pass-through entities for U.S. federal income tax purposes.

Each Non-U.S. Holder is urged to consult its own tax advisor about the specific methods for satisfying these requirements. A claim for exemption will not be valid if the person receiving the applicable form has actual knowledge or reason to know that the statements on the form are false.

If dividends are effectively connected with the conduct of a trade or business in the United States of the Non-U.S. Holder (and, if required by an applicable income tax treaty, are attributable to a

permanent establishment or fixed base maintained by such Non-U.S. Holder in the United States), the Non-U.S. Holder, although exempt from the withholding tax described above (provided that the certifications described above are satisfied), will generally be subject to U.S. federal income tax on such dividends on a net income basis in the same manner as if it were a resident of the United States. In addition, if such Non-U.S. Holder is taxable as a corporation for U.S. federal income tax purposes, such Non-U.S. Holder may be subject to an additional “branch profits tax” equal to 30% of its effectively connected earnings and profits for the taxable year, unless an applicable income tax treaty provides otherwise.

If a Non-U.S. Holder is eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty, such holder may obtain a refund or credit of any excess amount withheld by timely filing an appropriate claim for refund with the IRS.

Gain on sale, exchange or other taxable disposition of shares of our common stock

Subject to the discussion below under “—Additional withholding and information reporting requirements for shares of our common stock held by or through non-U.S. entities”, in general, a Non-U.S. Holder will not be subject to U.S. federal income tax or withholding tax on any gain realized upon such holder’s sale, exchange or other taxable disposition of shares of our common stock unless (i) such Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition, and certain other conditions are met, (ii) we are or have been a “United States real property holding corporation”, as defined in the Code (a “USRPHC”), at any time within the shorter of the five-year period preceding the disposition and the Non-U.S. Holder’s holding period with respect to the applicable shares of our common stock (the “relevant period”), or (iii) such gain is effectively connected with the conduct by such Non-U.S. Holder of a trade or business in the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment or fixed base maintained by such Non-U.S. Holder in the United States).

If the first exception applies, the Non-U.S. Holder generally will be subject to U.S. federal income tax at a rate of 30% (unless an applicable income tax treaty provides otherwise) on the amount by which such Non-U.S. Holder’s capital gains allocable to U.S. sources exceed capital losses allocable to U.S. sources during the taxable year of the disposition.

With respect to the second exception above, although there can be no assurance, we believe we are not, and we do not currently anticipate becoming, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our U.S. real property relative to the fair market value of other business assets, there can be no assurance that we are not currently or will not become a USRPHC in the future. Generally, a corporation is a USRPHC only if the fair market value of its “United States real property interests” (as defined in the Code) equals or exceeds 50% of the sum of the fair market value of its worldwide real property interests plus other assets used or held for use in a trade or business. Even if we are or become a USRPHC, a Non-U.S. Holder would not be subject to U.S. federal income tax on a sale, exchange or other taxable disposition of shares of our common stock by reason of our status as a USRPHC so long as (i) our common stock is regularly traded on an established securities market (within the meaning of Code Section 897(c)(3)) during the calendar year in which such sale, exchange or other taxable disposition of shares of our common stock occurs and (ii) such Non-U.S. Holder does not own and is not deemed to own (directly, indirectly or constructively) more than 5% of our common stock at any time during the relevant period. If we are a USRPHC and the requirements of (i) or (ii) are not met, gain on the disposition of shares of our common stock generally will be taxed in the same manner as gain that is effectively connected with the conduct of a U.S. trade or business, except that the “branch profits tax” will not apply. Prospective investors are urged to consult their own tax advisors regarding the possible consequences to them if we are, or were to become, a USRPHC.

If the third exception applies, the Non-U.S. Holder generally will be subject to U.S. federal income tax on a net income basis with respect to such gain in the same manner as if such holder were a resident of the United States, unless otherwise provided in an applicable income tax treaty, and a Non-U.S. Holder that is a corporation for U.S. federal income tax purposes may also be subject to a “branch profits tax” on its effectively connected earnings and profits at a rate of 30%, unless an applicable income tax treaty provides otherwise.

Additional withholding and information reporting requirements for shares of our common stock held by or through non-U.S. entities

Sections 1471 through 1474 of the Code and related Treasury regulations and guidance (commonly referred to as “FATCA”) generally will impose a U.S. federal withholding tax of 30% on payments to certain non-U.S. entities (including certain intermediaries), including dividends on and the gross proceeds from a sale or other disposition of shares of our common stock, unless such persons comply with a complicated U.S. information reporting, disclosure and certification regime. This new regime requires, among other things, a broad class of persons to enter into agreements with the IRS to obtain, disclose and report information about their investors and account holders. An intergovernmental agreement between the United States and an applicable foreign country may, however, modify these requirements and these requirements are different from and in addition to the certification requirements described elsewhere in this discussion. The FATCA withholding rules currently apply to dividend payments on our common stock and will apply to payments of gross proceeds from the sale or other disposition of shares of our common stock occurring after December 31, 2018. Prospective investors should consult their own tax advisors regarding the possible impact of these rules on their investment in our common stock, and the entities through which they hold our common stock, including, without limitation, the process and deadlines for meeting the applicable requirements to prevent the imposition of this 30% withholding tax under FATCA.

Backup withholding and information reporting

We must report annually to the IRS and to each Non-U.S. Holder the gross amount of the distributions on shares of our common stock paid to such holder and the tax withheld, if any, with respect to such distributions. These information reporting requirements apply even if withholding was not required. A Non-U.S. Holder may have to comply with specific certification procedures to establish that the holder is not a United States person (as defined in the Code) or otherwise establish an exemption in order to avoid backup withholding at the applicable rate with respect to dividends on our common stock. Dividends paid to Non-U.S. Holders subject to the U.S. federal withholding tax, as described above in “—Distributions on shares of our common stock”, generally will be exempt from U.S. backup withholding.

Information reporting and backup withholding will generally apply to the payment of the proceeds of a disposition of shares of our common stock by a Non-U.S. Holder effected by or through the U.S. office of any broker, U.S. or non-U.S., unless the holder certifies that it is not a United States person (as defined in the Code) and satisfies certain other requirements, or otherwise establishes an exemption. For information reporting purposes, dispositions effected through a non-U.S. office of a broker with certain substantial U.S. ownership, operations or connections generally will be treated in a manner similar to dispositions effected through a U.S. office of a broker, and dispositions otherwise effected through a non-U.S. office generally will not be subject to information reporting. Generally, backup withholding will not apply to a payment of disposition proceeds to a Non-U.S. Holder where the transaction is effected through a non-U.S. office of a U.S. broker or non-U.S. office of a non-U.S. broker. Prospective investors are urged to consult their own tax advisors regarding the application of the information reporting and backup withholding rules to them.

Copies of information returns may be made available to the tax authorities of the country in which the Non-U.S. Holder resides or is incorporated under the provisions of a specific treaty or agreement.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment made to a Non-U.S. Holder can be refunded or credited against such Non-U.S. Holder's U.S. federal income tax liability, if any, provided that an appropriate claim is timely filed with the IRS.

Federal estate tax

Shares of our common stock held (or treated as held) by an individual who is not a U.S. citizen or resident (as specifically determined for U.S. federal estate tax purposes) at the time of such individual's death will be included in such individual's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

Underwriting

We and the selling stockholders have entered into an underwriting agreement with the underwriters. Subject to the terms and conditions of the underwriting agreement, the selling stockholders have agreed to sell to the underwriters, and each underwriter has severally agreed to purchase, the number of shares of common stock listed next to its name in the following table:

<u>Name</u>	<u>Number of shares</u>
Merrill Lynch, Pierce, Fenner & Smith, Incorporated	8,500,000
J.P. Morgan Securities LLC	8,500,000
Total	17,000,000

The underwriters are committed to purchase all of the shares of common stock offered by the selling stockholders if they purchase any shares. The underwriting agreement also provides that if an underwriter defaults, the purchase commitments of the non-defaulting underwriter may also be increased or the offering may be terminated.

The underwriters have agreed to purchase the shares of common stock from the selling stockholders at a price of \$ _____ per share, which will result in \$ _____ of proceeds to the selling stockholders before expenses. The underwriters may receive from purchasers of the shares brokerage commissions in amounts agreed with such purchasers. The underwriters propose to offer the shares of common stock from time to time for sale in one or more transactions on The NASDAQ Global Select Market, in the over-the-counter market, through negotiated transactions or otherwise, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by them and subject to their right to reject any order in whole or in part. The underwriters may effect such transactions by selling shares of common stock to or through dealers and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or purchasers of shares of common stock for whom they may act as agents or to whom they may sell as principals. The difference between the price at which the underwriters purchase shares of common stock and the price at which the underwriters resell such shares of common stock may be deemed underwriting compensation. Sales of shares made outside of the United States may be made by affiliates of the underwriters. The underwriters have informed us that they do not intend to confirm sales to discretionary accounts that exceed 5% of the total number of shares offered by them.

Subject to the completion of this offering, we have agreed to purchase 2,000,000 shares of our common stock that are subject to this offering from the underwriters at a price per share equal to the price per share paid by the underwriters to the selling stockholders in this offering. No underwriting compensation is payable with respect to the shares acquired by us. The closing of the share repurchase is contingent on the closing of this offering.

We estimate that the total expenses of this offering, including registration, filing and listing fees, printing fees and legal and accounting expenses, will be approximately \$ _____. We have agreed to reimburse the underwriters for expenses, but excluding any underwriting compensation, related to the clearing of this offering with the Financial Industry Regulatory Authority, Inc. (“FINRA”) in an amount up to \$35,000. Such reimbursement is deemed to be underwriting compensation by FINRA.

A prospectus supplement and the accompanying prospectus in electronic format may be made available on the web sites maintained by the underwriters, or selling group members, if any, participating in the offering. The underwriters may agree to allocate a number of shares to themselves and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters to themselves and the selling group members that may make Internet distributions on the same basis as other allocations.

Lock-up

We have agreed that we will not (i) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act relating to, any shares of our common stock or securities convertible into or exchangeable or exercisable for any shares of our common stock, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing (other than filings on Form S-8 relating to our employee benefit plans), or (ii) enter into any swap or other arrangement that transfers all or a portion of the economic consequences associated with the ownership of any shares of common stock or any such other securities (regardless of whether any of these transactions are to be settled by the delivery of shares of common stock or such other securities, in cash or otherwise), in each case without the prior written consent of the underwriters, for a period of 30 days after the date of this prospectus, subject to certain exceptions.

Our directors, executive officers and significant equity holders (including affiliates of the Sponsors) have entered into lock-up agreements with the underwriters prior to the commencement of this offering pursuant to which each of these persons or entities, with limited exceptions, for a period of 30 days after the date of this prospectus, may not, without the prior written consent of the underwriters, (1) offer, pledge, announce the intention to sell, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, or otherwise transfer or dispose of, directly or indirectly, any shares of our common stock or any securities convertible into or exercisable or exchangeable for our common stock (including, without limitation, common stock or such other securities which may be deemed to be beneficially owned by such directors, executive officers, managers and members in accordance with the rules and regulations of the SEC and securities which may be issued upon exercise of a stock option or warrant) or (2) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of ownership of the common stock or such other securities, whether any such transaction described in clause (1) or (2) above is to be settled by delivery of common stock or such other securities, in cash or otherwise, or (3) make any demand for or exercise any right with respect to the registration of any shares of our common stock or any security convertible into or exercisable or exchangeable for our common stock.

We and the selling shareholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act.

Listing

Our shares of common stock are listed on The NASDAQ Global Select Market under the symbol “MIK”.

Price stabilization and short positions

In connection with this offering, the underwriters may engage in stabilizing transactions, which involves making bids for, purchasing and selling shares of common stock in the open market for the purpose of preventing or retarding a decline in the market price of the common stock while this offering is in progress. These stabilizing transactions may include making short sales of the common stock, which involves the sale by the underwriters of a greater number of shares of common stock than they are required to purchase in this offering, and purchasing shares of common stock on the open market to cover positions created by short sales.

These activities may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of the common stock, and, as a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If the underwriters commence these activities, they may discontinue them at any time. The

underwriters may carry out these transactions on The NASDAQ Stock Market, in the over-the-counter market or otherwise.

Other than in the United States, no action has been taken by us or the underwriters that would permit a public offering of the shares of common stock offered by this prospectus supplement in any jurisdiction where action for that purpose is required. The shares of common stock offered by this prospectus supplement may not be offered or sold, directly or indirectly, nor may this prospectus or any other offering material or advertisements in connection with the offer and sale of any such shares of common stock be distributed or published in any jurisdiction, except under circumstances that will result in compliance with the applicable rules and regulations of that jurisdiction. This prospectus supplement does not constitute an offer to sell or a solicitation of an offer to buy any shares of common stock offered by this prospectus supplement in any jurisdiction in which such an offer or a solicitation is unlawful.

We take no responsibility for, and can provide no assurance as to the reliability of, any other information that others may give you. ABOUT THIS PROSPECTUS

Unless the context requires otherwise, references in this prospectus to the “Company”, “Michaels”, “we”, “us” and “our” refer to The Michaels Companies, Inc. and its consolidated subsidiaries.

This prospectus is part of a registration statement on Form S-3 that we filed with the Securities and Exchange Commission (“SEC”), as a “well-known seasoned issuer” as defined under Rule 405 under the Securities Act of 1933, as amended (the “Securities Act”), using a “shelf” registration process. Under this shelf registration process, the selling stockholders may from time to time sell shares of our common stock in one or more offerings. This prospectus provides you with a general description of our common stock. Each time the selling stockholders sell shares of common stock under this shelf registration, we will provide a prospectus supplement that will contain specific information about the terms of that offering, including the specific amounts and prices of the shares of common stock offered and information about the selling stockholders. A prospectus supplement may also add, update or change information contained in this prospectus. Any statement that we make in this prospectus will be modified or superseded by any inconsistent statement made by us in a prospectus supplement. Before making your investment decision, you should read both this prospectus and any prospectus supplement, including all documents incorporated herein or therein by reference, together with additional information described under “Where you can find more information”.

RISK FACTORS

Investing in our common stock involves a high degree of risk. See “Item 1A. Risk Factors” in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus and in any subsequent Quarterly Report on Form 10-Q and the “Risk factors” section in the applicable prospectus supplement for a discussion of the factors you should carefully consider before deciding to purchase our common stock.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, the accompanying prospectus supplement and the documents incorporated by reference herein and therein contain forward-looking statements within the meaning of federal securities laws that relate to future events or our future financial performance. In many cases, you can identify forward-looking statements by terminology such as “aim”, “anticipate”, “assume”, “believe”, “can have”, “continue”, “could”, “due”, “estimate”, “expect”, “forecast”, “goal”, “intend”, “likely”, “may”, “objective”, “outlook”, “plan”, “potential”, “positioned”, “predict”, “pro forma”, “project”, “should”, “target”, “will”, “would” or the negative of these terms or other comparable terminology. These forward-looking statements are made based on our management’s expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These uncertainties and other factors could cause our actual results to differ materially from those matters expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Important factors that may cause actual results to differ materially from the results expressed or implied by these forward-looking statements are set forth under “Risk Factors” in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus and in any subsequent Quarterly Report on Form 10-Q and the “Risk factors” section in the applicable prospectus supplement. These forward-looking statements are based on information available to us on the date each forward-looking statement is made. We undertake no obligation, except as may be required by law, to publicly update or revise any of the forward-looking statements, whether as a result of new information, future events or otherwise.

Some of the important factors that could cause our actual results, performance or financial condition to differ materially from expectations are:

- general economic factors and changes in consumer preference may adversely affect our performance and could materially adversely affect our sales, results of operations and cash flow;
- our substantial debt could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, expose us to interest rate risk, prevent us from meeting our obligations under our notes and credit facilities and limit our flexibility in operating our business;
- a failure to adequately maintain security and prevent unauthorized access to electronic and other confidential information, which could result in additional Company data breaches, could materially adversely affect our reputation, financial condition and operating results;
- competition, including Internet-based competition, could negatively impact our business;
- our significant reliance on foreign suppliers, particularly those located in China, increases our risk of obtaining adequate, timely, and cost-effective product supplies;
- even if we are able to substantially continue our strategy of expanding our store base, our success will depend on how well we manage our business;
- damage to the reputations of the Michaels brand or our private and exclusive brands could adversely affect sales;
- our fourth quarter has historically been our highest quarter for sales and profitability, and a weak fourth quarter could have material adverse impacts on us;

- our promotional and merchandising programs are dependent on consumer responses, which could be unfavorable or unexpected, adversely impacting our sales;
- our holding company structure makes us, and certain of our direct and indirect subsidiaries, dependent on the operations of our, and their, subsidiaries to meet our, and their, financial obligations; and
- investment funds affiliated with or advised by Bain Capital Partners, LLC and The Blackstone Group L.P. (collectively, together with their applicable affiliates, the “Sponsors”) have the ability to control the outcome of matters submitted for stockholder approval and they may have interests that differ from those of our other stockholders.

The above is not a complete list of factors or events that could cause actual results to differ from our expectations, and it is not possible for us to predict all of them. We derive many of our forward-looking statements from our own operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. Important factors that could cause actual results to differ materially from our expectations, or cautionary statements, are disclosed under “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our most recent Annual Report on Form 10-K incorporated by reference in this prospectus and in any subsequent Quarterly Report on Form 10-Q and the “Risk factors” section in the applicable prospectus supplement. All written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements contained in this prospectus, the accompanying prospectus supplement and the documents incorporated by reference herein and therein, as well as other cautionary statements that are made from time to time in our other Securities and Exchange Commission (“SEC”) filings and public communications. You should evaluate all forward-looking statements made in this prospectus, the accompanying prospectus supplement and the documents incorporated by reference herein and therein in the context of these risks and uncertainties.

Potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on the forward-looking statements. These forward-looking statements speak only as of the date of this prospectus, the accompanying prospectus supplement or the documents incorporated by reference herein and therein, as applicable. Except as required by law, we undertake no obligation to update or revise any forward-looking statements publicly whether as a result of new information, future developments or otherwise.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

DESCRIPTION OF CAPITAL STOCK

As of May 2, 2015, the total amount of our authorized common stock consisted of 350,000,000 shares of common stock, par value \$0.06775 per share, and we had 207,466,712 shares of common stock issued and outstanding, of which 143,692,460 shares were held by our Sponsors, and no shares of preferred stock were issued or outstanding. As of May 2, 2015, we had 108 stockholders of record of common stock and had unvested restricted stock awards and outstanding options to purchase 8,549,262 shares of common stock.

The discussion set forth below describes our capital stock, certificate of incorporation and bylaws. We urge you to read the full text of our certificate of incorporation and bylaws, which are included as exhibits to the registration statement of which this prospectus forms a part.

Common Stock

Except as required by law or matters relating solely to the terms of preferred stock, each outstanding share of common stock will be entitled to one vote on all matters submitted to a vote of stockholders. Holders of shares of our common stock shall have no cumulative voting rights.

Our shares of common stock are listed on The NASDAQ Global Select Market under the symbol "MIK".

Preferred stock

Our Board of Directors ("Board") may, without further action by our stockholders, from time to time, direct the issuance of shares of preferred stock in series and may, at the time of issuance, determine the designations, powers, preferences, privileges, and relative participating, optional or special rights as well as the qualifications, limitations or restrictions thereof, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights of the common stock. Satisfaction of any dividend preferences of outstanding shares of preferred stock would reduce the amount of funds available for the payment of dividends on shares of our common stock. Holders of shares of preferred stock may be entitled to receive a preference payment in the event of our liquidation before any payment is made to the holders of shares of our common stock. Under specified circumstances, the issuance of shares of preferred stock may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of our securities or the removal of incumbent management. Our Board, without stockholder approval, may issue shares of preferred stock with voting and conversion rights, which could adversely affect the holders of shares of our common stock and the market value of our common stock. Subject to the rights of the holders of shares of preferred stock, the number of authorized shares of preferred stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the voting power of the outstanding shares of capital stock of the Company entitled to vote generally in the election of directors, voting together as a single class. There are no shares of preferred stock outstanding, and we have no present intention to issue any shares of preferred stock although we may in the future decide to do so.

Anti-takeover effects of our certificate of incorporation and bylaws

Our certificate of incorporation and our bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions, which are summarized below, will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with the Board, which we believe may result in an improvement of the terms of any such acquisition in

favor of our stockholders; however, these provisions also give the Board the power to discourage acquisitions that some stockholders may favor.

Authorized but unissued capital stock

The General Corporation Law of the State of Delaware (the “DGCL”) does not require stockholder approval for any issuance of authorized shares. However, the listing requirements of The NASDAQ Stock Market, which would apply as long as our common stock is listed on The NASDAQ Global Select Market, require stockholder approval of certain issuances equal to or exceeding 20% of the then outstanding voting power or then outstanding number of shares of common stock. These additional shares may be used for a variety of corporate purposes, including future public offerings, to raise additional capital or to facilitate acquisitions.

One of the effects of the existence of authorized but unissued common stock or preferred stock may be to enable our Board to issue shares to persons friendly to current management, which issuance could render more difficult or discourage an attempt to obtain control of our company by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of our management and possibly deprive the stockholder of opportunities to sell their shares of common stock at prices higher than prevailing market prices.

Board of Directors

Our certificate of incorporation provides that the authorized number of directors may be changed only by resolution of the Board. Our certificate of incorporation and our bylaws also provide that a director may be removed without cause as long as investment funds affiliated with our Sponsors hold a majority of our outstanding common stock, and when this ceases to be the case, only for cause by the affirmative vote of the holders of at least 75% of our voting stock. Any vacancy on our Board, including a vacancy resulting from an enlargement of our Board, may be filled only by vote of a majority of our directors then in office.

Action by written consent

The DGCL provides that, unless otherwise stated in a corporation’s certificate of incorporation, the stockholders may act by written consent without a meeting. Our certificate of incorporation provides that after the investment funds associated with the Sponsors collectively own less than majority of our outstanding common stock, any action required or permitted to be taken by our stockholders may be effected only at a duly called annual or special meeting of our stockholders and may not be effected by any consent in writing by our stockholders. As a result, investment funds associated with the Sponsors will be able to act by written consent so long as they collectively own at least a majority of our outstanding common stock.

Special meeting of stockholders and advance notice requirements for stockholder proposals

Our certificate of incorporation and bylaws provide that, except as otherwise required by law and subject to any rights of the holders of preferred stock, special meetings of the stockholders can only be called by (a) our chairman or any vice chairman of the Board, (b) the Board pursuant to a written resolution adopted by a majority of the total number of directors that our Board would have if there were no vacancies or (c) our secretary at the request of 25% of our common stockholders as long as investment funds affiliated with the Sponsors hold a majority of our common stock.

In addition, our bylaws require advance notice procedures for stockholder proposals to be brought before an annual meeting of the stockholders, including the nomination of directors. Stockholders at an annual meeting may only consider the proposals specified in the notice of meeting or brought before the meeting by or at the direction of the Board, or by a stockholder of record on the record date for

the meeting who is entitled to vote at the meeting, who has delivered a timely written notice in proper form to our secretary of the stockholder's intention to bring such business before the meeting, who attends (or has a qualified representative attend) the stockholder meeting and who has otherwise complied with the provisions of our bylaws and applicable law.

These provisions could have the effect of delaying any stockholder actions until the next stockholder meeting, even if they are favored by the holders of a majority of our outstanding voting stock.

Amendment to certificate of incorporation and bylaws

The DGCL provides generally that the affirmative vote of a majority of the outstanding stock entitled to vote on amendments to a corporation's certificate of incorporation or bylaws is required to approve such amendment, unless a corporation's certificate of incorporation or bylaws, as the case may be, requires a greater percentage. Our bylaws may be altered, amended or repealed by a majority vote of our Board or, in addition to any other vote otherwise required by law, the affirmative vote of the holders of a majority of the voting power of our outstanding shares of common stock so long as investment funds affiliated with the Sponsors collectively beneficially own a majority of our outstanding shares of common stock, and when this ceases to be the case, a vote of at least 75% of our outstanding common stock will be required. Additionally, so long as the investment funds affiliated with the Sponsors collectively beneficially own a majority of our outstanding shares of common stock, the affirmative vote of the holders of a majority of the voting power of our outstanding shares of common stock and, from and after the date on which the investment funds affiliated with the Sponsors cease collectively to beneficially own a majority of our outstanding shares of common stock, the affirmative vote of at least 75% of the voting power of our outstanding shares of common stock, in each case entitled to vote on the adoption, alteration, amendment or repeal of our certificate of incorporation, voting as a single class, is required to amend or repeal or to adopt any provision inconsistent with the "Board of Directors", "Director Liability", "Action by Written Consent", "Special Meetings of Stockholders", "Amendments to the Certificate of Incorporation and Bylaws", "Business Combinations", "Renouncement of Corporate Opportunity" and "Exclusive Jurisdiction of Certain Actions" provisions described in our certificate of incorporation. These provisions may have the effect of deferring, delaying or discouraging the removal of any anti-takeover defenses provided for in our certificate of incorporation and our bylaws.

Business combinations

We have elected in our certificate of incorporation not to be subject to Section 203 of the DGCL, an antitakeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination, such as a merger, with a person or group owning 15% or more of the corporation's voting stock for a period of three years following the date the person became an interested stockholder, unless (with certain exceptions) the business combination or the transaction in which the person became an interested stockholder is approved in a prescribed manner. Accordingly, we are not subject to any anti-takeover effects of Section 203. However, our certificate of incorporation contains provisions that have the same effect as Section 203, except that they provide that our Sponsors and their respective affiliates will not be deemed to be "interested stockholders", regardless of the percentage of our voting stock owned by them and accordingly will not be subject to such restrictions.

Renouncement of corporate opportunity

Our certificate of incorporation provides that we renounce any interest or expectancy in, or in being offered an opportunity to participate in, any business opportunity that may from time to time be presented to the Sponsors or any of their respective officers, directors, agents, stockholders, members, partners, affiliates and subsidiaries (other than us and our subsidiaries) and that may be a business

opportunity for the Sponsors, even if the opportunity is one that we might reasonably have pursued or had the ability or desire to pursue if granted the opportunity to do so. No such person will be liable to us for breach of any fiduciary or other duty, as a director or officer or otherwise, by reason of the fact that such person, acting in good faith, pursues or acquires any such business opportunity, directs any such business opportunity to another person or fails to present any such business opportunity, or information regarding any such business opportunity, to us unless, in the case of any such person who is our director or officer, any such business opportunity is expressly offered to such director or officer solely in his or her capacity as our director or officer. None of the Sponsors, any of the investment funds associated with the Sponsors or any of their respective representatives has any duty to refrain from engaging directly or indirectly in the same or similar business activities or lines of business as us or any of our subsidiaries.

Exclusive jurisdiction of certain actions

Our certificate of incorporation requires, to the fullest extent permitted by law, that (i) any derivative action or proceeding brought on behalf of the Company, (ii) any action asserting a claim of breach of a fiduciary duty owed by any director, officer or other employee of the Company to the Company or our stockholders, (iii) any action asserting a claim against the Company arising pursuant to any provision of the DGCL or our certificate of incorporation or the bylaws or (iv) any action asserting a claim against the Company governed by the internal affairs doctrine will have to be brought only in the Court of Chancery in the State of Delaware. Although we believe this provision benefits the Company by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors and officers.

Limitations on liability and indemnification of officers and directors

Our certificate of incorporation and bylaws limit the liability of our directors to the fullest extent permitted by applicable law and provide that we will indemnify them to the fullest extent permitted by such law. We have entered into indemnification agreements with our current directors and executive officers and expect to enter into a similar agreement with any new directors or executive officers.

Transfer agent and registrar

The transfer agent and registrar for our common stock is Computershare Trust Company, N.A. Its address is 250 Royall Street, Canton, MA 02021. Its telephone number is 1-800-736-3001.

PLAN OF DISTRIBUTION

The selling stockholders may sell securities in any of the ways described below or in any combination thereof:

- to or through underwriters or dealers;
- through one or more agents; or
- directly to purchasers or to a single purchaser.

The distribution of the securities by the selling stockholders may be effected from time to time in one or more transactions, through underwritten public offerings, privately negotiated transactions, block trades, purchases by a broker-dealer as principal, ordinary brokerage transactions, sales “at the market” to or through one or more market makers or into an existing trading market, exchange or otherwise, direct sales to purchasers, or any combination of the above, in each case:

- at a fixed price, or prices, which may be changed from time to time;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

Each prospectus supplement will describe the method of distribution of the securities and any applicable restrictions.

The prospectus supplement will describe the terms of the offering of the securities, including the following:

- the name or names of any underwriters, dealers or agents and the amounts of securities underwritten or purchased by each of them;
- the public offering price of the securities, the proceeds to the selling stockholders, and any discounts, commissions or concessions allowed or reallocated or paid to underwriters, dealers or agents, and other items constituting underwriters’, dealers’ or agents’ compensation;
- any delayed delivery arrangements; and
- information about the selling stockholders, including the relationship between the selling stockholders and us.

Any offering price and any discounts or concessions allowed or reallocated or paid to dealers will be specified in the applicable prospectus supplement and may be changed from time to time.

Only the agents or underwriters named in each prospectus supplement are agents or underwriters in connection with the securities being offered thereby.

The selling stockholders may authorize underwriters, dealers or other persons acting as our agents to solicit offers by certain institutions to purchase securities from the selling stockholders pursuant to delayed delivery contracts providing for payment and delivery on the date stated in each applicable prospectus supplement. Each contract will be for an amount not less than, and the aggregate amount of securities sold pursuant to such contracts shall not be less nor more than, the respective amounts stated in each applicable prospectus supplement. Institutions with whom the contracts, when authorized, may be made include commercial and savings banks, insurance companies, pension funds, investment companies, educational and charitable institutions and other institutions, but shall in all cases be subject to our approval. Delayed delivery contracts will be subject only to those conditions set forth in each applicable prospectus supplement, and each prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Agents, underwriters and other third parties described above may be entitled to indemnification by us and the selling stockholders against certain civil liabilities, including liabilities under the Securities Act, or to contribution from us and the selling stockholders with respect to payments which the agents, underwriters or third parties may be required to make in respect thereof. Agents, underwriters and such other third parties may be customers of, engage in transactions with, or perform services for us or the selling stockholders in the ordinary course of business. We and the selling stockholders may also use underwriters or such other third parties with whom we or such selling stockholders have a material relationship. We and the selling stockholders will describe the nature of any such relationship in the applicable prospectus supplement.

Certain underwriters may use this prospectus and any accompanying prospectus supplement for offers and sales related to market-making transactions in the securities. These underwriters may act as principal or agent in these transactions, and the sales will be made at prices related to prevailing market prices at the time of sale. Any underwriters involved in the sale of the securities may qualify as “underwriters” within the meaning of Section 2(a)(11) of the Securities Act. In addition, the underwriters’ commissions, discounts or concessions may qualify as underwriters’ compensation under the Securities Act and the rules of the Financial Industry Regulatory Authority.

Our common stock is listed on The NASDAQ Global Select Market. Underwriters may make a market in our common stock, but will not be obligated to do so and may discontinue any market making at any time without notice. We can make no assurance as to the development, maintenance or liquidity of any trading market for the securities.

Certain persons participating in an offering may engage in over-allotment, stabilizing transactions, short covering transactions and penalty bids in accordance with rules and regulations under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of the activities at any time.

LEGAL MATTERS

The validity of the issuance of the shares of common stock to be offered hereby will be passed upon for us by Ropes & Gray LLP, Boston, Massachusetts. Ropes & Gray LLP and certain of its attorneys have, in the aggregate, an indirect interest in less than 1% of our common stock, including through limited partnership interests in funds associated with the Sponsors.
